Automotive Skills Survey

Consisting of 3 Questionnaires:

1. Statistical data on employment in the automotive industry
 2. Typical occupations in the automotive industry and their characterising skills
 3. Best practices for tackling automotive skills issues
- To be distributed to EASC members and participants following this meeting
 - Replies to be collected by end of August/first week of September
 - Results to be discussed during 3rd EASC meeting on 1 October in Rome
 - General Comparative Study to be finalised by the end of this year

Next steps

- 8 September 2015: EASC Board meeting
- 1 October 2015: 3rd EASC meeting in Rome
- November/December 2015: EASC Board meeting
- Proposed date for the Final European Conference: 24/25 February 2016

See you in Rome!
